“Arranging”

In the words of Judge Learned Hand ~

"Over & over again courts have said there is nothing sinister in so “arranging” one’s affairs to keep taxes as low as possible. Everybody does so, rich or poor, and all do right, for nobody owes more tax than the law demands; taxes are enforced exaction, not voluntary contributions."

Quote from the honorable Judge Learned Hand, Justice, Appellate Court of the United States.

This “arranging” is where tax returns get more complicated. We take the time to arrange your business structures to keep your taxes as low as legally and reasonably possible.

Limited liability companies, real estate, trusts, limited partnerships, C and S corporations, tax-free exchanges, pension and profit sharing plans, estates, international - a knowledge of all these entities and their place in your business plan is required to best structure your overall tax situation.
